# How you will be participating in today's webinar?

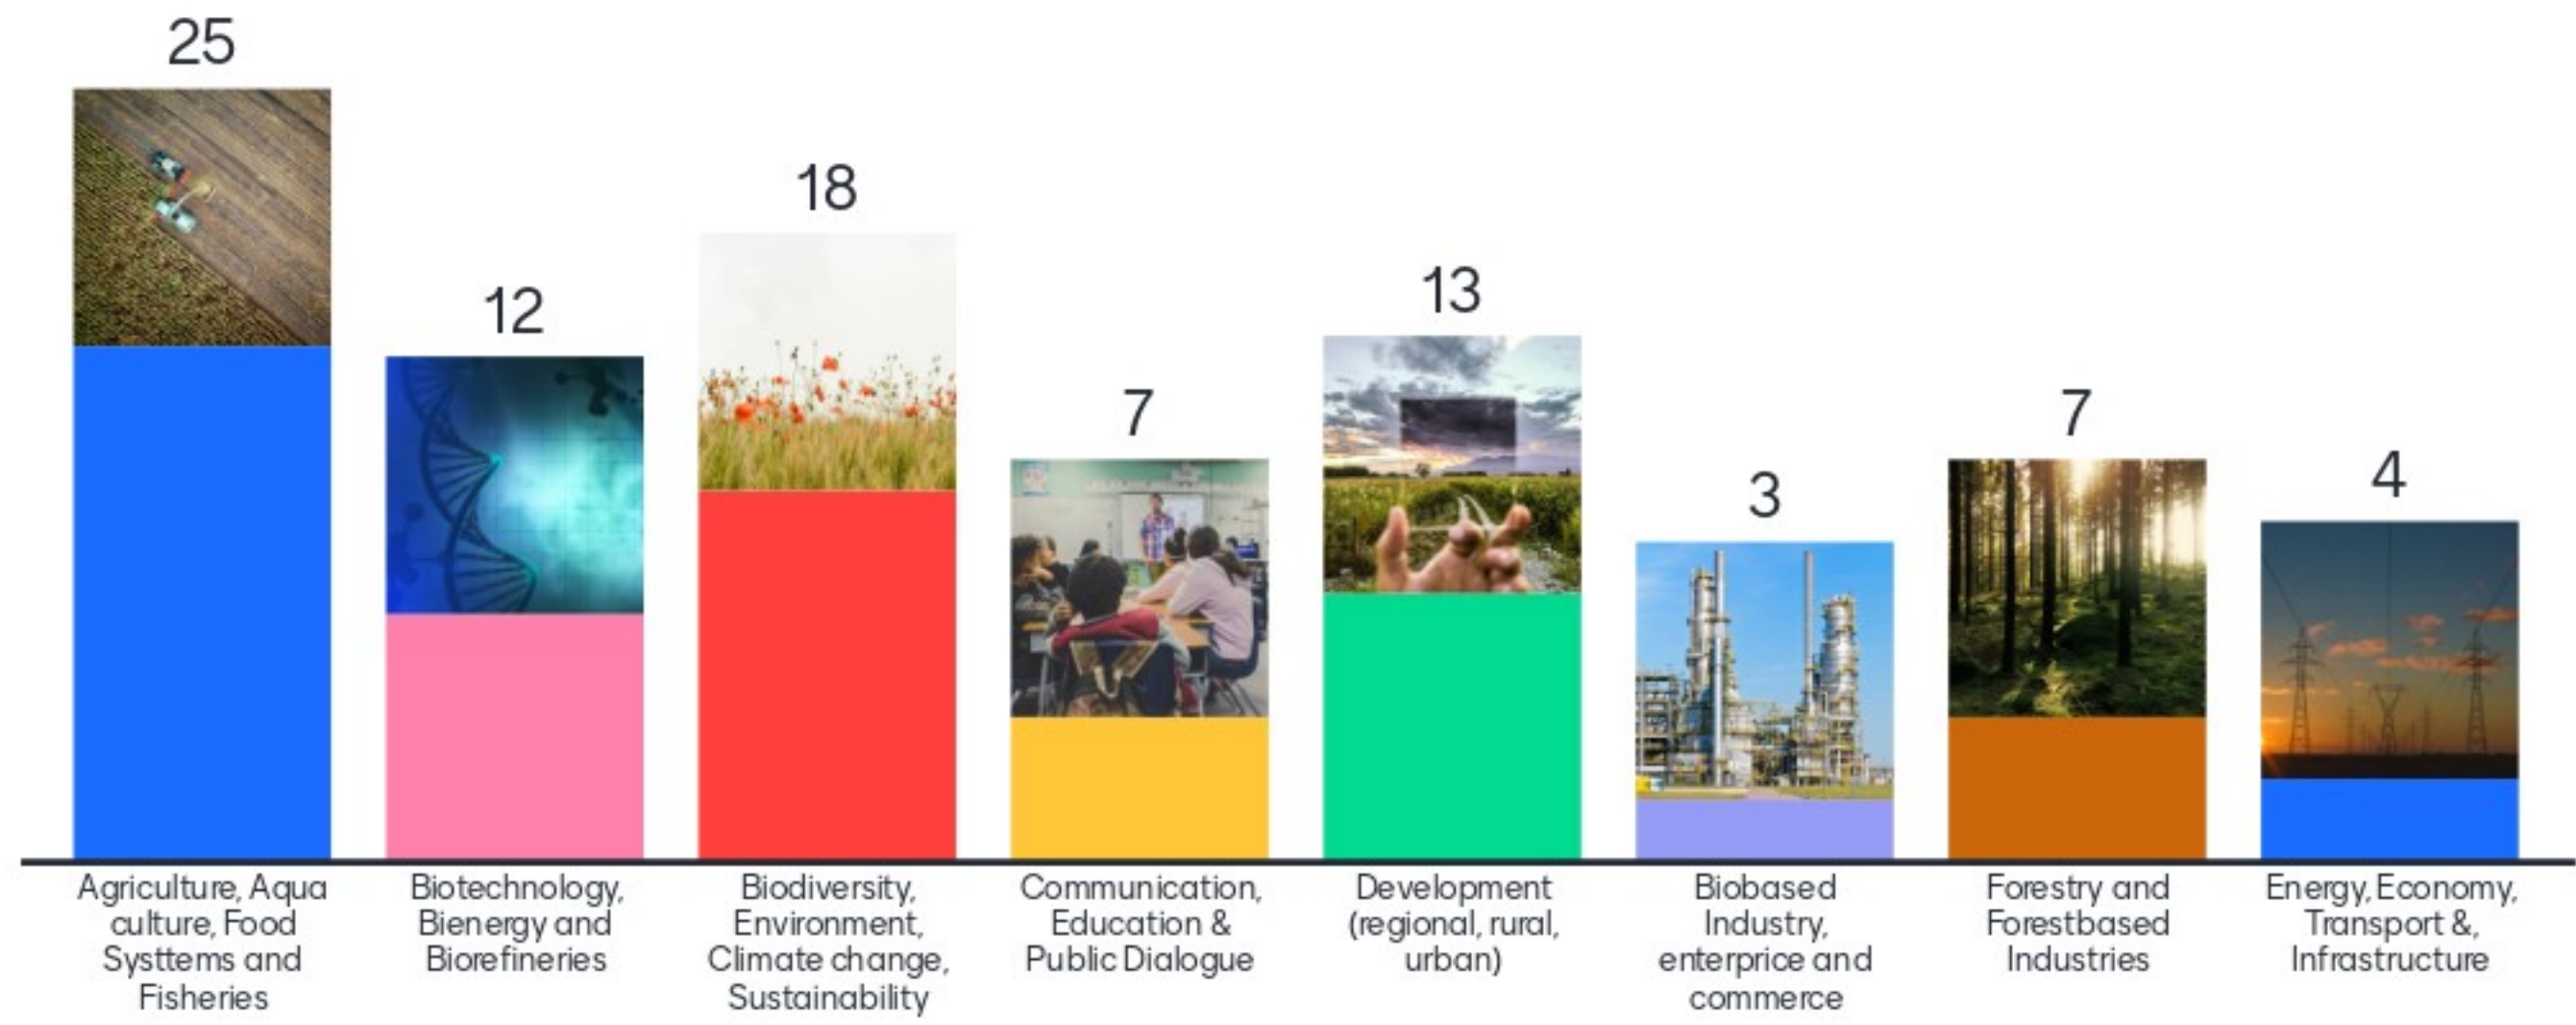

# To which stakeholder group you belong?

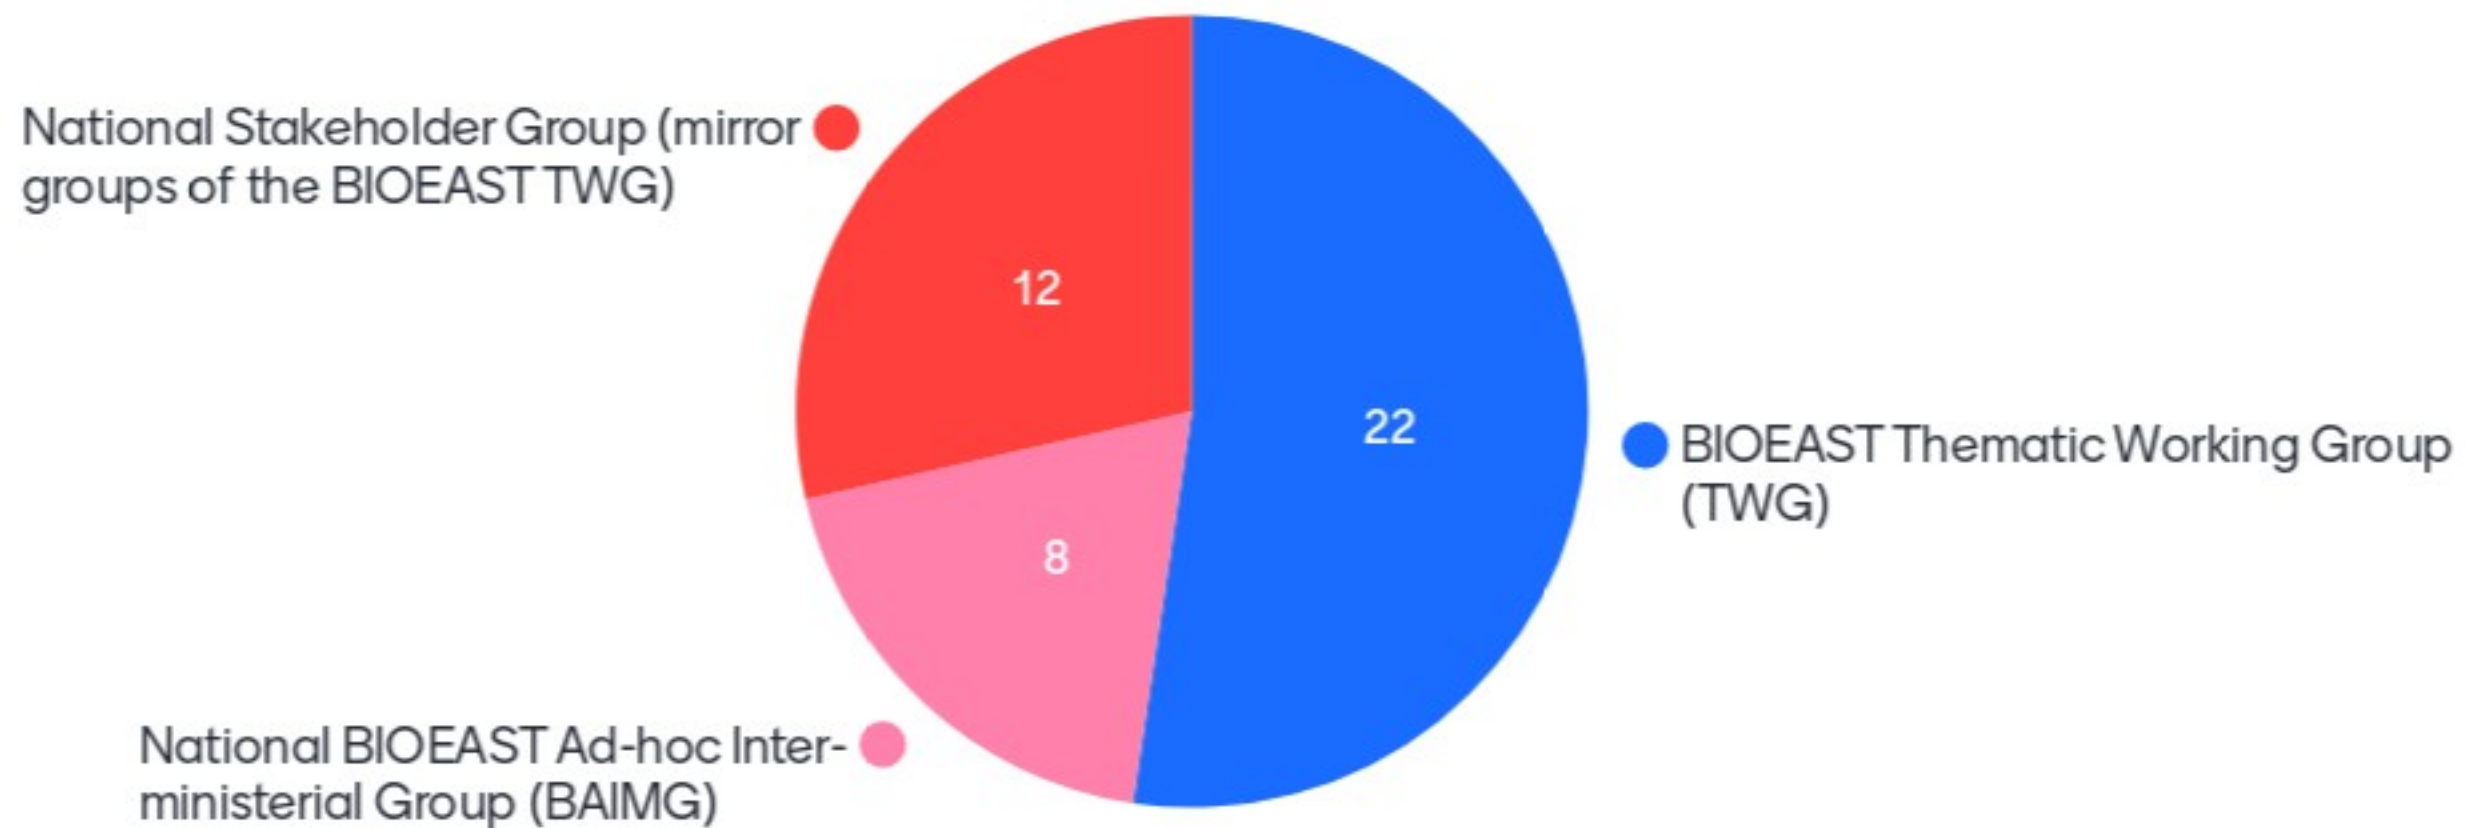

# In which field you are working?

# In which level group you already attend or see yourself as potential contributor?

# Please write "bioeconomy" in your language!

# Which country you are comming from?

The journey is the destination. Why National Platforms for Bioeconomy strategies development?

## Questions & Answers

# What kind of support for the national bioeconomy strategy development platforms is needed?

Meetings with NCP

trainings

Trainings needed for the ministry officers

Taylor made national specific meeting

Training

bioeconomy related business model development; technology validation and tailor made implementation

cycle of webinars, meeting with ministry, training

Training on efficient and successful coordination activities (how to efficiently lead meetings, non-violent communication, conflict management, mediation...)

Acceleration of policy support facility

# What kind of support for the national bioeconomy strategy development platforms is needed?

training - methodological training

Trainings, also show best and Aldo failed practices

Guidelines for the main steps

Sharing outcomes of related international activities.

Trainings for politicians and decision-makers on the importance of cross-sectoral communication and solutions.

It could be helpful in case of the meetings at forein affairs level to stress the commitments on Bioeconomy developmen under Bioeast .

# Is covid-19 crisis a chance or threat to the bioeconomy transition in your country?

It is a threat to bioeconomy

threat

It might boost circular Bioeconomy in rural areas

It is a chance, but we are not considering the possibility

Covid-19 should not be a threat. We should go on with this circular economy transition. As it increases resilience.

It could be a chance, but the leaders dont belive it...

As it seems now it is a kind od threat. We hope not in a long run

I hope the new Slovak government will understand it as a chance...

Might be a big chance

# Is covid-19 crisis a chance or threat to the bioeconomy transition in your country?

It is a threat to any economy. Still chance to re-build thinkink and concepts of economies.

Could be a chance - but politicians don't think in this way at the moment

Diffucult, but could be a chance

On the contrary, this is the unique opportunity for Central and Eastern European EU Member States to catch up with other (older) EU Member States since some critical production lines from China will be transfered back to Europe.

It could be a chance.

It is also the way how to prevent other cricis

Concrete good examples should be presented to politicians

Chance

Chance

# Is covid-19 crisis a chance or threat to the bioeconomy transition in your country?

A chance

# Which topics are crucial to make the bioeconomy transition in the CEE country a success?

Too difficult to answer

taking into consideration climate change mitigation

knowledge transfer, exchange of good practices on the ground, demonstration projects...

Stakeholder involvement

Horizontal: Education and Coordination  
Sectoral: Forestry, Agriculture

economic values of environmental/natural assets

motivation, investments in bioeconomy

The communication with representers from primary production sector.

## Advancing Sustainable Circular Bioeconomy in Central and Eastern European Countries

Join a series of five thematic and technical webinars organised by the BIOEAST Initiative and its supporting action BIOEASTsUP from May to July 2020!

**CLICK HERE  
TO REGISTER**

### Webinar 1

21 May 2020 10:00 CET

Introduction to the BIOEASTsUP activities  
(Open to everyone)

### Webinar 2

28 May 2020 13:00 CET

BIOEASTsUP BIO HUBs and national platforms  
for bioeconomy strategies development.  
(Open to BIOEAST NCPs, members of National BAIMG and  
Stakeholder Groups, TWG and BIOEASTsUP members)

### Webinar 3

5 June 10:00 CET

Indicators and statistical evidence for bioeconomy development.  
(Open to BIOEAST NCPs, members of national BAIMG and  
Stakeholder Groups, TWG and BIOEASTsUP members)

### Webinar 4

15 June 10:00 CET

Developing multi-stakeholder partnerships  
and co-creation for boosting the uptake  
of bioeconomy in CEE  
(Open to everyone)

### Webinar 5

9 July 10:00 CET

Planning sectoral analysis and exchange  
of good practices for bioeconomy value chains  
(Open to everyone)

#### PARTNERS

### About BIOEASTsUP

The overall objective of BIOEASTsUP project is to support the BIOEAST Initiative and Action Plan for the transition of 11 Central and Eastern European (CEE) countries towards sustainable bioeconomy.

Thank you very much for your attendance!
