

# BOOSTING THE UPTAKE OF CIRCULAR SOLUTIONS IN CONSTRUCTION VALUE CHAINS

4-year Horizon Europe project with focus on testing & upscaling circular solutions in the construction sector through 5 pilot projects in 5 European regions, and on developing a 3D web-based map to showcase the circularity potential of existing buildings in 3 European regions.

Pilot projects showcase innovative, integrated solutions for efficient building with recycled construction waste. The Circular map links location-specific waste, circular indicators, and tailored recovery guidelines in 3 European regions.
